Become healthier with the help of a doctor who listens and cares...

Dr. "M" is committed to the highest level of Health Care and Prevention for all ages and conditions. She integrates current health sciences with traditional and alternative therapies. She concentrates on whole-patient wellness, and strives to remove the underlying cause of a patient's condition rather than to simply eliminate or suppress symptoms. Thus, she personalizes diagnosis and treatment to the patient's needs, taking into account

individual physical, mental, hereditary susceptibility, environmental, social and other factors.

As a Naturopathic physician, Dr. Mazure-Mitchell is a primary care and specialty doctor. She performs physical exams (check-ups, annuals, well-child, sports), laboratory testing, nutritional assessments and other specialized diagnostic tests. She refers patients to and coordinates care with medical doctors as appropriate.

Specialties include, but are not limited to: Primary care, Allergies, ADD/ autism spectrum, Cancer co-management, Cardio-vascular, Immune fortification for flu/colds, Fatigue, Candida, Condition-specific diets, Natural hormone replacement and other endocrine, Gentle spinal and tissue adjustments. Bowen manipulation technique, Physical therapies and Hydrotherapies for immunity.

Dr. Mazure-Mitchell, ND graduated from Bastyr University in Seattle, a nationally accredited naturopathic medical school, and is state-licensed as a primary care physician by the Oregon Board of Naturopathic Examiners. She also has a BS and MS in Community Health Education from the U of O. She is a member of the American Association of Naturopathic Physicians. In addition to many years of public involvement, Dr. M instructs the Phlebotomy Technician Training Program at LCC.

For prevention and to build and/or restore your health, call today for an appointment or to schedule a free "Meet the Doctor" (5-minute interview). Office visits are covered by many insurances.
